Teams Module

Prepared by: Akib Rahman

Module Description: Functional requirements, team metric definitions, management rules, and structural logic for the Teams management interface.

Technical & Functional Specifications

#	Metrics / Function	Definition	Example	Logic & Rules (Comments)
1	Total Teams	Total number of active teams configured in the system.	• Baseline = 15 Teams • Created = 1 Team • Deleted = 2 Teams • Total Teams = 14	Teams are counted regardless of whether they have assigned members.
2	Total Members	Total count of unique agents currently assigned to at least one team.	• Total Telesales Agents = 50 • Agents in Teams = 20	Unassigned agents (not part of any team) are excluded from this metric.

#	Metrics / Function	Definition	Example	Logic & Rules (Comments)
			• Total Members = 20	
3	Empty Teams	Count of existing teams that currently have zero members assigned.	• Total Teams = 15 • Teams with members = 13 • Empty Teams = 2	Identifies unstaffed or newly created team shells.
4	Create Team	Interface to provision a new team. Requires a Team Name (Mandatory) . <i>(Description is optional)</i> .	Baseline = 15 Teams → Admin creates 1 new team → Total Teams = 16	Team name must be unique.
5	Search Team	Enables filtering/searching the team list by Team Name .	Search "Alpha" to filter for Team Alpha.	Note: Searching directly by individual member/agent name is not supported .
6	Edit Team	Modifies existing team details. Editable fields: Team Name and Description .	Existing name: <i>Team A</i> → Updated name: <i>Team B</i>	Member management/assignment is handled separately in the View Team screen.
7	View Team	Opens team detailed view to inspect configuration and assign new members. Member Selection Rules: Only agents not currently assigned to any team are eligible for selection.	Baseline = 3 Members → Added 1 unassigned agent → Total = 4 Members → Deleted that agent's account → Total = 3 Members	⚠ Critical Rule: Once a member is added, they cannot be removed directly. Members are only removed from a team if their user account is deleted.
8	Delete Team	Removes an existing team from the system.	• Delete empty team → Successful • Delete team with 1+ assigned members → Unsuccessful	⚠ Critical Rule: Teams with assigned members cannot be deleted. Assigned member accounts must first be deleted from the system to empty the team before deletion is permitted.
