Release PR ready: [falaq-digital/ecom-admin-ui#1292](#) (targeting release , not yet merged — awaiting approval)

Main already merged: [falaq-digital/ecom-admin-ui#1290](#)

What landed:

- Variant and relation tables (edit page) — sticky header, 520px / 280px scroll cap, opaque background, z-index fix.
- Variant table (detail page) — same treatment; the read-only panel was missing it.
- Short Description / Description editors — content area bounded at 160px (compact) and 320px (full); toolbar was already sticky so it stays pinned as the content scrolls.

All three areas now behave consistently: content scrolls within a fixed-height container, headers/toolbars stay visible.

Test Complete.

Now the headers are sticky.
