Testing Checklist:

Customer Information

Phone

- Existing phone number displays correctly.
- Phone number can be edited.
- Valid phone number is accepted.
- Invalid characters/format are rejected or validated.

- Required field validation works if phone is mandatory.

Name

- Name can be edited.
- Empty name validation works.
- **Special characters and reasonable name lengths work.**

Address

- Address can be edited.
- Empty/invalid address is handled appropriately.
- **Long addresses don't break the layout.**

Shipping Zone

- Dropdown opens.
- Available zones are displayed.
- Selecting a zone updates the delivery charge.
- Delivery fee is reflected in the total.

Gender / Occupation / Age Group

- Each dropdown opens correctly.
- Options can be selected.
- Selected values are displayed correctly.
- Values persist after saving/reloading.
- Appropriate validation works for required fields.

Product Search & Selection

Right-side product panel:

- Product search field accepts text.
- Search returns matching products.
- Search by product name works.
- Clicking a product adds it to the order.
- Adding a product updates the item count.
- Adding a product updates subtotal and total.

Duplicate Product

- Adding the same product twice follows the expected behavior:
 - increases quantity
- Subtotal remains mathematically correct.

Discount — P0/P1

- Discount control opens correctly.
- Fixed amount discount works.
- **Discount cannot exceed the applicable subtotal.**
- Negative discount is rejected.
- Invalid discount values are validated.
- Discount updates subtotal/total correctly.
- Removing discount restores original total.

Delivery

- Delivery charge displays correctly.
- Free delivery checkbox can be selected.
- Selecting Free changes delivery charge to \$0.
- Total updates immediately.

Update Order

Update button

- ~~Button is disabled when there are no changes, if that is intended.~~
- **Button becomes enabled after a valid change.**
- ~~Clicking Update saves all modified data.~~

Notes

Buttons shown:

- Customer Note
- Admin Note
- Courier Note
- Packaging Note

For each:

- ~~Button opens the correct note interface.~~
- ~~Existing note is displayed.~~
- ~~New note can be entered.~~
- ~~Note can be edited.~~
- ~~Note can be saved.~~

Order Status

- Order Type
- Disposition
- Scheduled

For each:

- ~~Current status is correct.~~
- ~~Can change the disposition.~~
- ~~Order type can be Normal, Fake, Duplicate.~~
- ~~Fake and Duplicate force to cancel the order.~~
- ~~Schedule can be use to schedule an order.~~

Bug 01: Returning customer name issue.

Reproducing Steps:

- Go to Falaq Food storefront.
- Create an order with old number but change the name.
- Go to Admin panel and view that order.

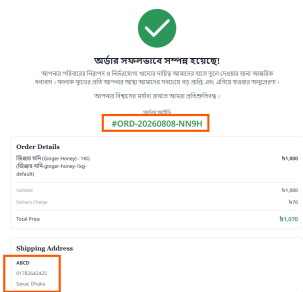

Expected Result:

Details should match with the order placed details.

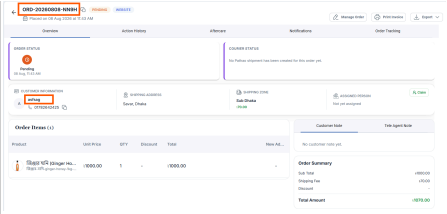

Actual Result:

Showing wrong name or name is not updating.

Screenshots:

Screenshot 1: Check this order and customer name.

Screenshot 2: Viewing the order from admin and it shows different name.
