Description

Title:

Operation module - Operation dashboard new update complete testing.

User Story:

As an agent, I want to view real-time dashboard metrics and data so that I can monitor performance and order pipeline efficiently.

Acceptance Criteria:

Search and Filter:

1. Status

2. Agents

3. Teams

4. Day

Acceptance Criteria for for each metric:

Shows data accurately.

Do not show data beyond selection.

Filter options are correct.

Top Metrics:

Lifetime Metrics:

1. Pending

2. Scheduled

3. Advanced

Filterable Metrics:

1. Total Order
2. Pending
3. Confirmed
4. Cancelled
5. Extra Bucket

Today's Metric:

1. Working
2. Confirmed
3. Cancelled
4. Extra Bucket
5. Fake
6. Dispositions

Acceptance Criteria for each metric:

- Count is correct.
- Amount is correct.
- Percentage is calculated correctly.
- Values matches the database/API response.
- Percentage should always be between 0% and 100%.
- No negative values.
- Dashboard data is retrieved successfully from the backend.
- All metric cards are visible after page load.

Comments

Comment by [Akib Rahman](#) [05/Aug/26]

1. Dashboard Level Checklist

Filters

Verify every metric changes correctly when filtering by:

- ~~Status (Online/Pause/Offline)~~
- ~~Agent~~
- ~~Team~~
- ~~Date~~
- ~~Combined filters~~
- ~~Reset filters~~
- ~~Empty result~~

Check:

- Metric count changes correctly.
- The amount changes correctly.
- Percentage recalculates.
- The agent table matches metrics.
- No stale data after changing filters.

2. Lifetime Metrics Checklist

Pending

- ~~Counts only current Pending orders.~~
- **Matches count with Database.**
- ~~Uses lifetime data.~~
- ~~Ignore the date filter.~~
- ~~Pending Amount equals sum of pending order values.~~

Scheduled

- ~~Counts only Order Type = Scheduled.~~
- ~~Lifetime count.~~
- ~~The Scheduled Amount is correct.~~
- ~~Scheduled % correct.~~
- ~~Normal pending orders are excluded.~~

Advanced

- ~~The order has advance payment.~~
- **Matches count with Database.**
- ~~Status follows business rules.~~
- ~~Lifetime calculation.~~
- ~~Advance amount equals in verification advanced payment.~~
- ~~Cancelling reduce the count and amount.~~

3. Date Filterable Metrics Checklist

Total Orders

- **Counts orders worked on, in a date range.**
- **Total amount correct.**
- **Percentage correct.**
- **Agent table total matches card.**

Pending

- ~~Current status is Pending.~~
- ~~Value changes on filter change.~~
- ~~Pending Amount correct.~~
- ~~Pending % correct.~~

Confirmed

- **Current status = Confirmed.**
- **Value changes on filter change.**
- **Amount correct.**
- **% correct.**
- **Count is correct.**

Cancelled

- ~~Current status = Cancelled.~~
- **Value changes on filter change.**
- ~~Amount correct.~~
- ~~% correct.~~
- ~~Verify Fake/Double inclusion according to business decisions.~~

Confirmed Extra Bucket

- ~~Only confirmed orders are considered.~~
- ~~Extra products added.~~
- ~~Extra amount calculated correctly.~~
- ~~% correct.~~
- ~~Count matches actual orders.~~
- ~~Value changes on filter change.~~

4. Today's Metrics Checklists:

Working

- **Create / Disposition / Confirm / Cancel orders are count here.**
- Fresh and Old distribution correct.
- The working amount is correct.
- Matches working orders list.

Confirmed

- Current status = Confirmed.
- Only today's count.
- Amount correct.
- % correct.
- Count is correct.

Cancelled

- Current status = Cancelled.
- Only today's count.
- Amount correct.
- % correct.
- Count is correct.

Extra Bucket

- Only confirmed orders are considered.
- Extra products added.
- Extra amount calculated correctly.
- % correct.
- Count matches actual orders.
- Value based on today's count.

Fake Orders

- Order Type = Fake.
- Count correctly.
- Amount correct.
- % correct.
- Verify relation with Cancelled metric.

Disposition

- **Only dispositions made are count.**
- Only Working Pending orders today.
- Breakdown matches:
- No Response
- Busy
- Phone Off
- Hold
- Later
- Other
- Count matches table.
- **% correct.**

5. Agent Table Checklist

- **The table itself has its own scrollbar; the whole page must not scroll.**
- **Table columns and metric sections can expand and collapse correctly.**
- **The table supports increasing and decreasing (resizing) column widths.**

Agent Information

- Agent name correct
- Agent email shown
- No duplicate agents

Work

- Work count matches total worked orders
- Amount correct
- Percentage correct

Confirmed

- Equals confirmed orders handled by agent

Cancelled

- Equals cancelled orders handled by agent

Extra Bucket

- Matches extra bucket orders

Discount

- Discount count correct
- Discount amount correct

Shipping

- Shipping charge matches orders
- Shipping amount correct

Assign

- Assigned orders count correct

Later

- Callback Later disposition count

No Response

- No Response disposition count

Phone Off

- Phone Off disposition count

Other

- Other disposition count

Unassigned

- Unassigned orders correct

Pause

- ~~Pause disposition count~~

Busy

- ~~Busy disposition count~~

Follow

- ~~Follow-up count correct~~

Hold

- ~~Hold disposition count~~

6. Visual Design

- All colors match the new design exactly.
- Spacing throughout the page matches the new design.
- Font sizes match the new design.

6. Information Icon

- Every metric that should have an information icon has one.
- Each information icon's message/text correctly matches and explains the metric it belongs to.

Comment by Akib Rahman [05/Aug/26]

Bug 01: 'Total Order , Pending' metrics are changing based on Team filter.

Reproducing Steps:

- Go to Operational Dashboard.
- Select a team from Team filter.

Expected Result: Total order, Pending order metrics should not change.

Actual Result: Metrics are changing.

Screenshots:

Screenshot 1: Showing all data without filter.

Screenshot 2: Showing metric changed after changing Team filter.

Comment by Akib Rahman [05/Aug/26]

Bug 02: 'Confirmed, Cancelled, Extra Bucket' metrics are changing based on Team filter & Agent filter.

Reproducing Steps:

- Go to Operational Dashboard.
- Select a team from Team filter or select an agent from agent filter.

Expected Result: These filters should not affect the metrics.

Screenshots:

Comment by [Akib Rahman](#) [05/Aug/26]

Bug 03: 'Confirmed, Cancelled' metric's percentage calculation is wrong.

- Go to Operational Dashboard.
- Calculate percentages of confirmed and cancelled metrics.

Expected Result: % supposed to be based on Total Order.

Actual Result: Current % does not match with Total Order.

Screenshots:

Bug 04: Total Order does not match exact count. [Solved]

- Go to Operational Dashboard.
- Calculate counts of Pending + Confirmed + Cancelled.
- Match with Total Order created.

Expected Result: Count should match.

Actual Result: Current count does not match with Total Order.

Screenshots:

Comment by [Akib Rahman](#) [05/Aug/26]

Bug 05: 'Working' metrics - % calculation is incorrect. [Removed]

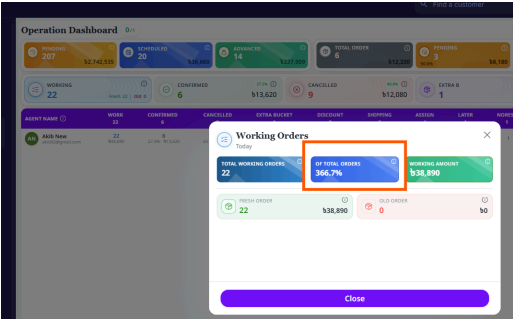

Reproducing Steps:

- Go to Operational Dashboard.
- Click on Working metric.
- Calculate % based on Total Order.

Expected Result: Should have shown accurate %.

Actual Result: Currently showing unexpected %.

Screenshots:

Comment by Akib Rahman [05/Aug/26]

Bug 06: Dispositions metric changing on fresh Confirmed and Cancelled orders.

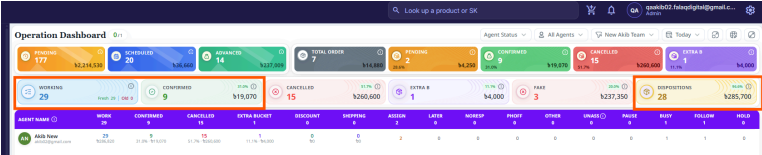

Reproducing Steps:

- Confirm or Cancel a pending order.
- Go to Operational Dashboard.
- Check Dispositions.

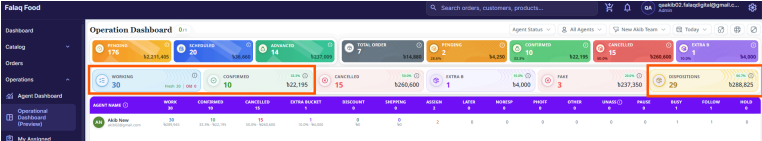

Expected Result: Disposition count should be unchanged.

Actual Result: Disposition also increasing.

Screenshots:

Screenshot 1: Working = 29, Confirmed = 9, Dispositions = 28.

Screenshot 2: Confirmed a fresh pending order. But Dispositions also increased.

Comment by Foysal Ahammed [05/Aug/26]

Akib Rahman This is expected behavior. When we are confirming or cancelling an order system is adding a disposition (DONE) which is being counted here.

Nasir Khan Can you please confirm if we want to keep this behavior

?

Comment by Nasir Khan [05/Aug/26]

Foysal Ahammed It should be the pending deposition count. So Disposition = Work - (confirmed + cancelled), right?

FYI,
Fake and doubled are also marked as cancelled, right?

Comment by Foysal Ahammed [05/Aug/26]

Nasir Khan

1. Fake and doubled are cancelled order.
2. Disposition are the pending orders which has at least one contact log in todays metrics except done or schedule. (Pending + disposition)

Comment by Akib Rahman [05/Aug/26]

Bug 07: 'Cancelled' metrics - % calculation is incorrect. [Solved]

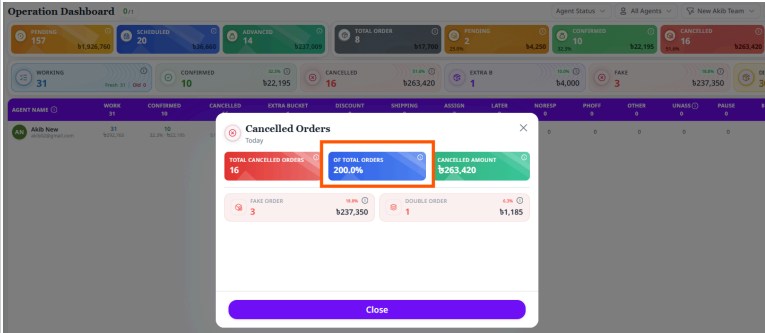

Reproducing Steps:

- Go to Operational Dashboard.
- Click on Cancelled metric.
- Calculate % based on Total Order.

Expected Result: Should have shown accurate %.

Actual Result: Currently showing unexpected %.

Screenshots:

Comment by Foysal Ahammed [05/Aug/26]

Akib Rahman This card is not required. I have removed it. Please verify.

Comment by Foysal Ahammed [05/Aug/26]

Akib Rahman This looks good to me.

This filter first selected the order on selected date range and when we are applying team filter it filtering the order on the order of that selected date range.

cc: Nasir Khan

Comment by Foysal Ahammed [05/Aug/26]

Akib Rahman Same as Bug 01.

Comment by Akib Rahman [05/Aug/26]

Bug 08: Irrelevant column (Unass) in the table.

Reproducing Steps:

- Go to Operational Dashboard.
- Check the Unass column in the table.

Expected Result: This column says orders that are not assign to an agent. But this table shows information about working details of each agents. So the column is irrelevant here.

Actual Result: Column is there and the value is irrelevant.

Screenshots:

A screenshot of the 'Operation Dashboard' showing a table with various columns. A red rectangle highlights the 'Unass' column, which stands for 'Unassigned'. The table lists agents and their associated metrics across different categories like WORKING, CONFIRMED, CANCELLED, etc.

Comment by Akib Rahman [05/Aug/26]

Please approve if this is okay. Nasir Khan

Comment by Akib Rahman [06/Aug/26]

Bug 09: Advance Payment metric count is not accurate.

Reproducing Steps:

- Go to Operational Dashboard as Admin.
- Check the Advance Payment metric count and amount.
- Go to Advance Payment tab under Operations module.
- Cross check total pending advance payment count and amount.

Expected Result: Both count and total amount should match each other.

Actual Result: Currently showing wrong count and amount.

Screenshots:

Advance Payments

Verify partial/full advance payments recorded by agents before they are approved or voided

Bug 10: Lifetime Pending metric does not match with actual count.

Reproducing Steps:

- Go to Operational Dashboard as Admin.
- Check the Pending metric count and amount.
- Go to Orders module and filter as Pending and All time.
- Cross check both count and amount.

Expected Result: Both count and total amount should match each other.

Actual Result: Currently showing wrong count and amount.
