Description:

Management wants three new features to tracks the number of orders placed through Mobile Vs Computer, Organic Vs Paid and Storefront Vs Agent.

Features:

1. Mobile Vs Computer
2. Organic Vs Paid
3. Storefront Vs Agent

Required Functionalities:

- Real-time or regularly updated counts based on ERP order data.
- Date filters for today, yesterday, this week, this month, and custom date ranges.
- Order status filters to count all orders or only confirmed, paid, or completed orders.
- Drill-down reports so users can click a count to view the corresponding orders.

Possible Options:

1. Report Module - Orders Analytics Page: Metrics, Charts
2. Orders Module: Filters
3. (New) Reports Module - Order Counts: Metrics, Table, Filters, Charts
