Reproducing Steps:

- Navigate to any of the following tabs:
Confirmed → View Order
Canceled → View Order
Disposition → Manage Order
All Scheduled → Manage Order
- Apply any available filters and navigate to a specific pagination page.
- Open an order and navigate to the respective View Order or Manage Order page.
- Click Back to return to the previous page.
- Observe the page, filters, and pagination state.

Expected Result:

The user should be returned to the same tab/page from where the order was opened.
Previously selected filters should remain unchanged.
The previously selected pagination page should be preserved.

Actual Result:

After clicking Back Button, taking to the Orders page.
