Title: Combos tab displays single products along with combo products**Module:**

Storefront → Combos

Environment:

Dev

Description:

When the user selects the Combos tab, the page displays some individual/single products along with the expected combo products. The Combos tab should only display products that are configured as combo products.

Steps to Reproduce:

- Open the Falaq Food storefront.
- Navigate to the Combos tab.
- Observe the products displayed in the product listing.
- Check the products and their product types.

Actual Result:

The Combos tab displays both:

- Combo products
- Individual/single products

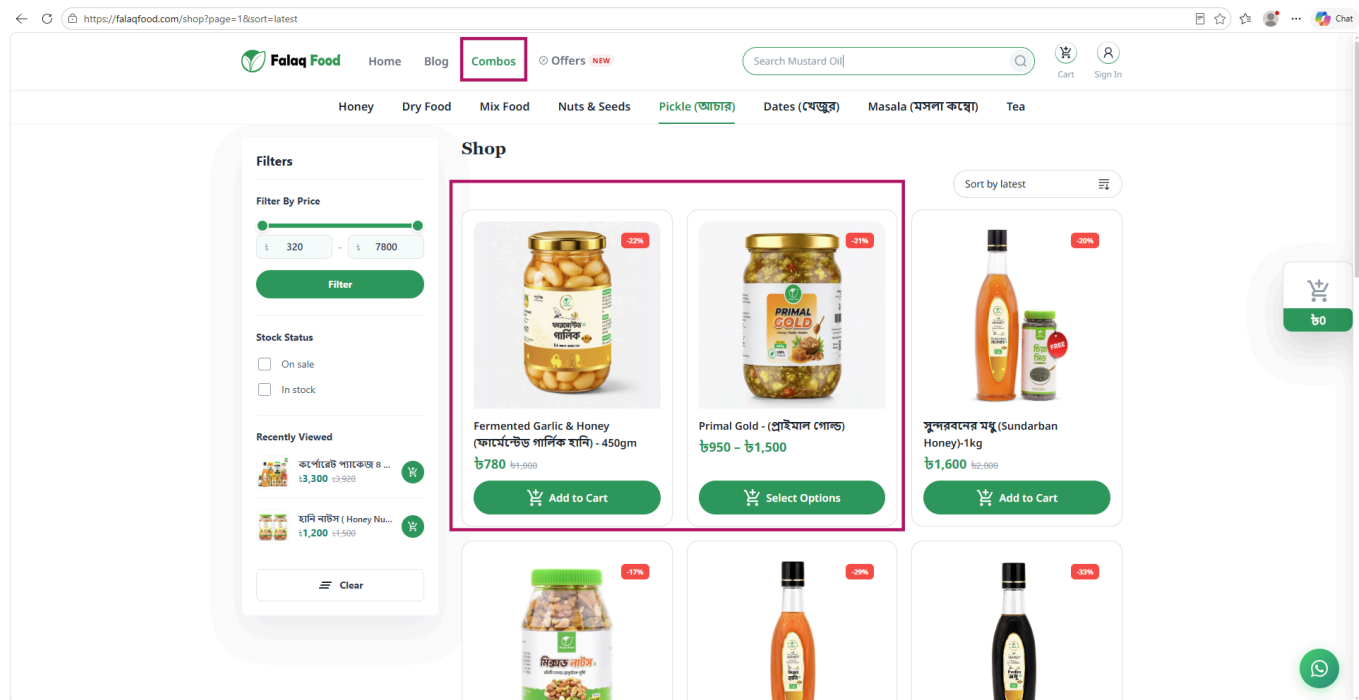

Expected Result:

The Combos tab should display only combo products. Individual/single products should not appear in the Combos listing.

Severity:

Medium
