Description

When Agent B adds extra bucket value to an already confirmed order by Agent A, then Agent B doesn't get any credit.

Preconditions

Two agent will work on same order.
Agent A will confirm an order.
Agent B will update that order with an extra bucket.

Steps to Reproduce

Login as Agent A and confirm an order.
Search that order as Agent B and add an extra bucket value to that and update.
Check My Assigned tab for both agent to verify credits goes as expected.

Expected Result

Agent B will not get any confirmation credit but will get the Extra Bucket credit accurately. While Agent A will only get the confirmation credit.

Actual Result

Agent B is not getting the extra bucket credit. That extra bucket value is vanishing and no one getting that.

Screenshots

1. From the My Assigned tab of this agent, we can see he just added an extra bucket value to another agent's confirmed order. So his current confirm = 0, extra bucket value is 900bdt.

The screenshot shows the 'Telesales Cockpit' interface. At the top, there's a search bar and a user profile for 'akib02@gmail.com'. Below this, there are three main sections: 'WORKING ORDER' (0), 'CONFIRMED ORDER' (0), and 'EXTRA BUCKET' (900). The 'EXTRA BUCKET' section is highlighted with a yellow box. Below these sections, there's a table with columns: ORDER ID, CUSTOMER, PHONE, STATUS, ITEMS, TOTAL, CUSTOMER NOTE, DISPOSITIONS, and AGE. The first row shows a pending order for Akib Rahman with a total of 1,260.

2. But in Operational Dashboard, that agent didn't get the credit for the extra bucket value.

The screenshot shows the 'Operational Dashboard' for 'Falaq Food'. It features a top navigation bar with a search bar and user profile. Below this, there are several performance metrics: PENDING (131), SCHEDULED (5), ADVANCED (21), TOTAL ORDER (8), PENDING (3), CONFIRMED (3), CANCELLED (2), and EXTRA B (1). Below these metrics, there's a table with columns: AGENT NAME, WORK, CONFIRMED, CANCELLED, EXTRA BUCKET, DISCOUNT, SHIPPING, ASSIGN, NOT STARTED, LATER, NORESP, PHOFF, OTHER, PAUSE, BUSY, FOLLOW, and HOLD. The 'EXTRA BUCKET' column for 'Akib New' is highlighted with a yellow box, showing a value of 0.

- ✓ The five existing Extra Bucket grains are unchanged; the new agent-level credit is a separately labeled sixth figure #1087
