Page:

Order Manage

Component:

Telesales Disposition Modal

Issue Type:

UI / Functional Bug

Severity:

Medium

Description

In the Order Manage page, the Disposition dropdown has two issues:

- The dropdown options list is cut off at the bottom, preventing users from viewing all available disposition options properly.
- After selecting a disposition option, the selected value is not displayed in the dropdown field.

Steps to Reproduce

- Select an Order and Click 'Manage Order'

- Click the Disposition button.
- Click the Disposition dropdown.
- Observe that the dropdown options list is cut off at the bottom.
- Select any available disposition option.

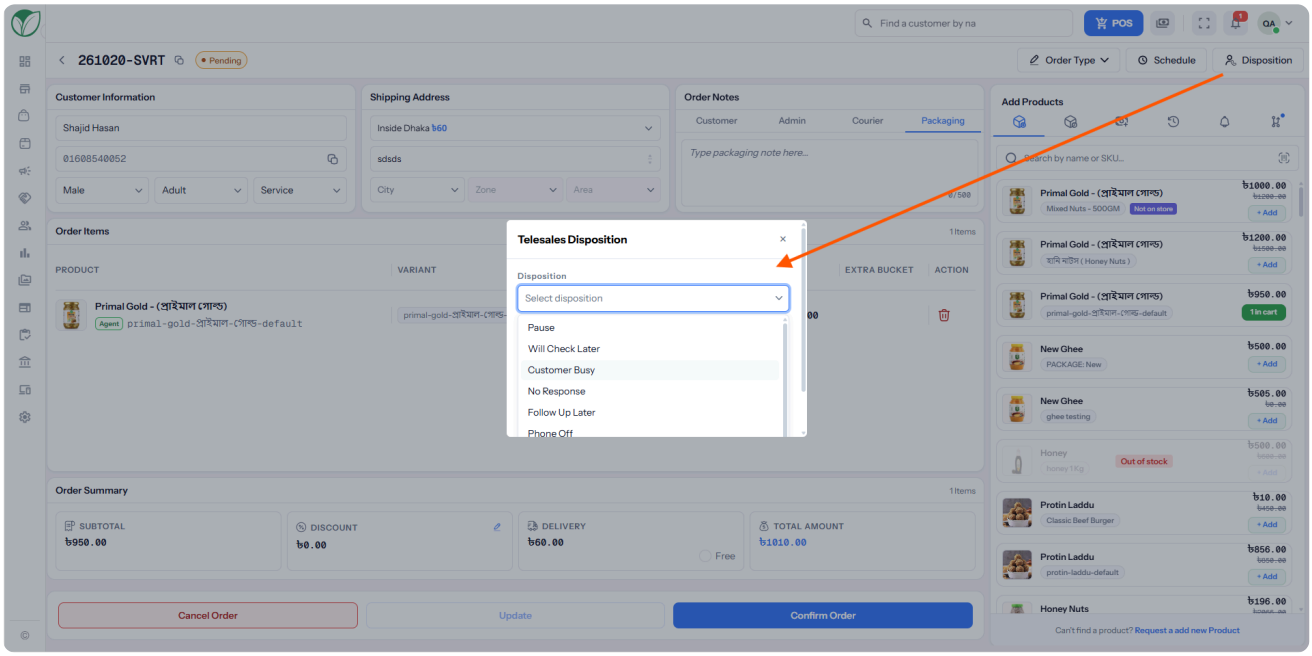

Actual Result

- The dropdown options list is partially cut off at the bottom of the modal.
- The selected disposition is not displayed in the dropdown field after selection.

Expected Result

- The dropdown options list should be displayed properly without being cut off by the modal or viewport boundaries.
- After selecting a disposition, the selected value should be displayed in the dropdown field.
