[QA] Fulfillment Queue - Viewing an order and then pressing Back button is taking to 'Orders' page. #944

[Open](#)[Bug](#)[Assignees](#)[Labels](#)[Week-1](#)[bug](#)**qaakib02falaqdigital** opened 41m ago

Last edited by qaakib02falaqdigital ▾ ⋮

Reproduction Steps

- Navigate to the Fulfillment Queue page.
- Click the Processing filter.
- Click the View icon for any order.
- Click the Back button from the order details page.

Expected Result

The user should be redirected back to the Fulfillment Queue page, with the Processing filter and all other previously applied filters retained in their last selected state.

Actual Result

Clicking the Back button redirects the user to the Orders page instead of returning to the Fulfillment Queue page. The previously applied filters are therefore not retained.

Screenshots:

1. Go to Fulfillment and go to Processing page and view an order.
